G. O. P. VOTERS MUST WATCH OUT

People Have Good Chance to Throw Off Rule if They Will Work,

OKLAHOMA CITY, Nov. 1.—The consensus of opinion of committeemen, and county chairmen attending the state committee meeting here Saturday was that never did the people of Oklahoma have a better chance to redeem the state from the pernicious Tammany machine cule that it has been exploited by since statehood. Reports from the different counties made it conclusive that Republicans, if the full vote can be gotten out, will carry the state. will carry the state.

"SWEENEY HAS IT."

carly voting to forestall the favorite maneuver of the muchine of creating builtot shortness for the purpose of disfranchising Republican and anti-

distranchising Republican and anti-machine Democrats.

Particular sitention was also called to the importance of every voter realizing and remembering the fact that the ballots on the fair election law and the repeal of the universal registration law most this year be marked with a rubber stamp not with pencil, as in the previous elec-tion on the literacy test.

Must Vote "Yes," To adopt the fair election has and to vote for the repeal of the universal registration has 'yes' should be voted on both questions. The ballot must be marked with the rubber stamp or the vote will not be counted.

the ballot, but that the vote is east in reality for the respective presidential electors. However, to enable the voter to recognize his national party at a glance emblems are placed at the head of the ticket, as follows: An eagle over the Republican national licket, a rooster over the Democratic ticket, an extended hand over the Somixed an extended hand over the So-cialist ticket, a dove over the Probl-billion ticket. A cross, made with a rubber stamp, in the circle under the emblem counts as a vote for the en-tire ticket of that party, for instance where a man stamps in the circle the eagle it is a vote for the whole Re-publican state and national ticket.

where a man stains in the circle the shall be sh

RETURN TO SOUTH FRANCE NOW PAYS FOR NEW KIDDIES

In Attempting to Repopulate Country by Paying People Premiums.

PLAN WORKING IS

Decrease in Number of Children in That Country Was Startling.

(Correspondence of The Associated Press.)
PARIS. Oct. 29.—The repopulation problem is passing from theory to practical effort in reawakened France. Sociologists, savants and scientists had for years before the war pointed out the dangers of a declining birth rate. Nothing was done, however, beyond the appointment of for marooned men.—Panama. Sir Errest Shackleton, antarctic explorers, is here ready to head another relief expedition to New Zealand. He charles and operative at Charlesot by senting and operative at the senting at t

In 1880 the figures were: Grent Britain and Ire-

Great Britain and Ire-land 45,000,000 Austria 53,000,000 German empire 58,000,000 Italy

Austria 53,000,000

Austria 53,000,000

German empire 55,000,000

Italy 35,500,000

In the space of a single generation
France had been passed by Germany
in 1865, by Austria in 1880, and by
Great Britain in 1895, and was being
closely pressed by Italy.

The gravity of the situation was
shown by the figures of 1811, when
there were 776,000 deaths against
742,000 births, a net loss of 34,000.

At the outbreak of the war the Germans were in the proportion of 183 to
100, but in another twenty years the
proportion would have been 300 to
100 in the natural rate of progression. This meant that the Germans
had each year 550,000 recruits
against 200,000, while in twenty
years they would have had 900,000
to 300,000 or less.

These figures were known before the war, but they seem to have attracted the attention of scientists only. It remained for the battles of Charlerol and Morhange to impress their full significance upon more practical minds.

Today business men and business associations, agricultural syndicates, chambers of commerce and leadern in all walks of life have taken the

Figures Were Known.

All that had been done previous to the was was the granting by law in 1890 of a free scholarship in one of the colleges to one of seven children of the same family. It is now generally admitted that it is the first three or four that should be encouraged. That is the object of the proposed law recently introduced in the chamber of deputles by Monsieur Paul Benazet, deputy for the department of the Indre. It provides a premium of 500 francs for each of the first and second children, 1,000 francs for the third, and 2,000 francs for the first and second children, 1,000 francs for the third, and 2,000 francs for the fourth, and 1,000 francs for each succeeding child. This will not be a powerful incentive to the rich, but it will be a boon to the poor. The rich will be reached in other ways; by the force of public opinion, perhaps, becoming so strong as to constitute a formidable pressure; perhaps by other proposed fiscal legislation discriminating in favor of the large family.

NEGRO LABORERS MIGRATE NORTH

Movement Is Said to Be Induced by Labor Shortage Due to War.

WASHINGTON, Nov. 1. — Migra-tion of southern negroes to northern labor centers, reported informally to the department of labor some time ago, has been brought to the attention of the department again by the recent movement of three hundred negroes from Florida to eastern cities. Such a number passed through here from Jacksonville Sat-

urday night.
The negroes, it is said, were in The negroes, it is said, were in charge of a labor agent formerly of this city, who supplied them to a railroad, to a concern in Baltimore and to some concerns further north. The unofficial explanation of the movement has been that the negroes were being taken north to meet the scarcity of immigrant labor caused by the war.

The department of labor is cog-

The department of labor is cog-nizant of the opposition in the south to the removal of its labor to other sections of the country, but so far as is known there is nothing the federal authorities can do about it. In fact, it is said, the department of labor through its recently organized employment service, has unwittingly been a party to some of the migration.
